
Integrating Molecular Biological Tools into Site Management

Workshop Registration Form

October 1st, 2010 ● 8:30am to 12:30pm ● Melbourne, Australia

Site managers now have a broad spectrum of molecular biological tools (MBTs) and advanced analytical techniques at their disposal to comprehensively evaluate treatment options and performance. While each advanced diagnostic tool can provide valuable information, selecting the most appropriate and cost-effective technology to best answer site-specific questions and guide site management decisions can be a confusing and daunting task. Workshop attendees will gain a practical understanding of the application of these state of the art tools to document and quantify the role of in-situ biodegradation.

Attendee Information

Please type or print clearly

Last Name (Surname) _____ First Name _____

Affiliation _____

Address _____

City _____ State/Province _____

Country _____ Postal Code _____

Telephone _____ Fax _____ Email _____

WAYS TO REGISTER:

E-mail: info@microbe.com, abiernacki@microbe.com, dogles@microbe.com

Fax: 865-573-8133

Phone: 865-573-8188
